

**BOYD ANNOUNCES ADDITIONAL FEDERAL STIMULUS DOLLARS FOR GULF COUNTY HEALTH DEPARTMENT**

WASHINGTON, D.C.—U.S. Congressman Allen Boyd (D-North Florida) today announced that the Gulf County Health Department of Port St. Joe, Florida, is scheduled to receive an additional \$561,570 in federal stimulus dollars to help improve access to quality healthcare for North Floridians. The Gulf County Health Department previously received \$196,485 in stimulus funding.

“Improving the quality, affordability, and availability of healthcare is extremely important to me and the people of North Florida,” said Congressman Boyd. “The Gulf County Health Department provides essential, comprehensive health services, and I am pleased that the health department and our community will be able to benefit from this funding.”

This funding was made available under the American Recovery and Reinvestment Act, which was signed into law earlier this year with Congressman Boyd’s support.
